

STOP THE DELAYS. PROTECT YOUR MARGINS.

COMPLETE SITE INTELLIGENCE DESIGNED FOR
BUILDERS AND DEVELOPERS.

Most fly automated, standard grid patterns. We do the heavy lifting.

At Uncrude.io, we provide rigorous, high-resolution tracking and structural inspections for Tampa Bay's largest jobsites. We eliminate the guesswork that causes costly delays and safety hazards.

1. Lender Draw Acceleration:

Stop waiting on manual site walks. Our RTK-accurate maps are accepted as primary draw documentation.

2. SB-4D:

Comprehensive drone-based facade and structural inspections that help support SB-4D milestone inspection requirements.

3. Workflow Integration:

2D maps and 3D models integrate seamlessly into Procore and Autodesk Construction Cloud.

4. Certified Drone Pilot:

Leverage our FAA Drone certification for better project management.

Don't build on guesswork. Build on verified data.
Equip your project managers with same-day site intelligence
to track subcontractors and hit every deadline.

BOOK YOUR SITE CONSULTATION TODAY.
